Navajo & Hopi Families COVID-19 Relief Fund

Program Manager Public Health Education
Wendy Atcitty
September 10, 2021
Navajo & Hopi Families COVID-19 Relief Fund

- Concern for our most vulnerable relatives in the face of the COVID-19 global pandemic.

- Launch a relief effort to help protect our communities and now transitioning to long-term resiliency-based work

- We seek to help our communities overcome these challenges so they can be pandemic-proof and climate change-resilient for the long term.
Vaccine Campaign Program

- Why aren't people getting vaccinated?
- Develop resources and have them available for our communities to vaccinate to reach herd immunity.
- Public outreach to vaccinated and unvaccinated through one-pagers, tribal influencers, social media, and radio forum.
- Surveys from outdoor public events and phone banking.
- Sign up to take survey at https://bit.ly/3DYqry8

Josteen Chee
Grantee – Made To Save

National education & grassroots campaign working to save lives by increasing access to COVID-19 vaccines.

• Vaccine equity and access in communities of color
• https://madetosave.org/about/
Incentives

“I am fully vaccinated and urge everyone to receive the COVID-19 vaccination, including all pregnant women. With the rise of the Delta variant, we must listen to scientists and do what is best for the next generation. Children have returned to the classroom and we must protect them, especially those who are not yet eligible to receive the vaccination.”

JASMINE BLACKWATER-NYgren
Articano State Representative
Fairbanks, Alaska

“During the pandemic, the Hopi and Diné communities have suffered tremendous loss throughout the Covid-19 pandemic. As tribal members, we must protect our children, families, and each other.

One of the most important steps in regaining the health of our communities is to get a Covid-19 vaccination! I received mine and I feel great! The best way to guard against anymore unnecessary loss due to the Covid-19 virus is to get a vaccination.”
